Janice,

This is the end of the Period of Performance for the contract so The CO wants minimal funds in the contract until the next POP - money left-over cannot be carried and will be swept (10/01/15). After this trip Chris is down to 1K travel and 2K OT. Enough for the teardown. I will move more funds if needed just let me know.

Joe

Subject: Request for IT Support at Gold King

Joseph-

We need to move the Colorado ICP, including START and the JIC from their current location at the County Fairgrounds Event Center building to the Extension building. Chris Freed helped set up the initial IT needs and is very familiar with the IT support needed to network the printers, plotter and computers in the Extension building. We are planning the move for Sunday. We are requesting his support during the move.

FEMA may have some IT equipment to contribute to the network needs at the new building.

Thanks,

Janice
